Visitor Centre orders powers up Oakfield

Photo Awaited

Oakfield Displays Ltd has scooped shopfitting orders for 4 new Powergen Visitor Centres located throughout the UK.

Oakfield were delighted to win the orders through Michon Design and Pentalfa and have commenced on their first "fit out" at Yarmouth. Other centres include Aberystwyth, Conners Quay and Ironbridge.

The finished Visitor Centres will be high tech in design, each having bespoke oak and brushed aluminium wall panelling, counters, display units and lecterns. Managing Director, Phil Boyfield said " We are pleased to be entrusted with this high profile project and will be working closely with Pentalfa and Michon to deliver the required result."

The on site programme for the project totals 15 weeks to cover all 4 centres. Oakfield employ their own installation team to ensure each build is completed on time and to a high level of quality.
